VOLUME 20

MELBOURNE
1967

AUSTRALIAN JOURNAL OF BIOLOGICAL SCIENCES

A medium for the publication of results of original scientific research in the biological sciences with special emphasis on the experimental phases. Volumes 1 to 5 issued as the Australian Journal of Scientific Research, Series B: Biological Sciences.

Published by the Commonwealth Scientific and Industrial Research Organization.
Issued six times a year, \$A4 per annum.

BOARD OF STANDARDS

The Board of Standards for this Journal is appointed by the Commonwealth Scientific and Industrial Research Organization and the Australian Academy of Science and consists of Professor N. S. Bayliss (Chairman), Mr. A. E. Scott (Editor-in-Chief), Professor C. W. Emmens, Professor G. H. Satchell, Professor R. Street, and Professor J. S. Turner.

ADVISORY COMMITTEE

Acceptance of papers for this Journal is in the hands of an Advisory Committee appointed by the Board of Standards and consisting of Mr. A. E. Scott (Editor-in-Chief and Chairman), Professor C. W. Emmens, Dr. L. T. Evans, Professor R. N. Robertson, Professor G. H. Satchell, and Professor J. S. Turner.

All enquiries and manuscripts should be forwarded to:

The Editor-in-Chief,
Editorial and Publications Section, CSIRO,
Sixth Floor,
372 Albert Street,
East Melbourne, Victoria 3002

CONTENTS

NUMBER 1, FEBRUARY 1967

	PAGE
Inflorescence initiation in <i>Lolium temulentum</i> L. IX. Some chemical changes in the shoot apex at induction. By A. H. G. C. Rijven and L. T. Evans	1
Inflorescence initiation in <i>Lolium temulentum</i> L. X. Changes in ^{32}P incorporation into nucleic acids of the shoot apex at induction. By A. H. G. C. Rijven and L. T. Evans	13
The effect of water stress on translocation in relation to photosynthesis and growth. I. Effect during grain development in wheat. By I. F. Wardlaw	25
Retention of water by plant cell walls and implications for drought resistance. By T. S. Teoh, L. A. G. Aylmore, and J. P. Quirk	41
Growth changes of subterranean clover during recovery from phosphorus and sulphur stresses. By D. Bouma	51
The boron nutrition of the diatom, <i>Cylindrotheca fusiformis</i> , grown on agar, and the biological activity of some substituted phenylboronic acids. By T. F. Neales	67
Uptake and metabolism of inorganic forms of selenium-75 by <i>Spirodela oligorrhiza</i> . By G. W. Butler and P. J. Peterson	77
A necrotrophic reaction in <i>Nicotiana</i> species induced by <i>Peronospora tabacina</i> Adam. By C. J. Shepherd and M. Mandryk	87
Influence of soil fertility and moisture on lysis of fungal hyphae. By M. Bumbieris and A. B. Lloyd	103
Homothallism in <i>Thanatephorus cucumeris</i> . By Helena M. Stretton, N. T. Flintje, and A. R. McKenzie	113
New data on linkage group III markers in <i>Neurospora crassa</i> . By Janet E. Crawford	121
Selection in reference to biological groups. I. Individual and group selection applied to populations of unordered groups. By B. Griffing .. .	127
Adsorption titration as a specific semi-quantitative assay for soluble and bound <i>Paramecium</i> serotypic antigen. By Helen Macindoe and A. H. Reisner	141
A relationship between sulphur content of wool and wool production by Merino sheep. By P. J. Reis, D. A. Tunks, O. B. Williams, and A. J. Williams	153
Succinic acid production by rumen bacteria. I. Isolation and metabolism of <i>Ruminococcus flavefaciens</i> . By M. F. Hopgood and D. J. Walker ..	165

NUMBER 1, FEBRUARY 1967 (*Continued*)

	PAGE
Succinic acid production by rumen bacteria. II. Radioisotope studies on succinate production by <i>Ruminococcus flavefaciens</i> . By M. F. Hopgood and D. J. Walker	183
Fungal cellulases. XX. Some observations on the induction and inhibition of the cellobiase of <i>Stachybotrys atra</i> . By M. A. Jermyn	193
Fungal cellulases. XXI. Induction of the cellulase of <i>Stachybotrys atra</i> . By M. A. Jermyn	221
The aminopropylation of bovine serum albumin. By M. A. Jermyn	233
Studies on tetanus toxin and toxoid. I. Isolation of tetanus toxin using DEAE-cellulose. By D. J. Dawson and C. M. Mauritzen	253
Thermal transitions in gastropod collagen and their correlation with environmental temperature. By B. J. Rigby and P. Mason	265
Corrigenda	271

NUMBER 2, APRIL 1967

Quantitative studies of root development. II. Growth in the early stages of development. By the late L. H. May, Fay H. Randles, D. Aspinall, and L. G. Paleg	273
Nodulation and growth of <i>Trifolium subterraneum</i> L. cv. Mount Barker in agar culture. By J. R. Cannon, Nanette H. Corbett, J. Brockwell, A. H. Gisbon, and G. A. McIntyre	285
The effect of water stress on the movement of [¹⁴ C]sucrose and of tritiated water within the supply leaf of young bean plants. By Z. Plaut and Leonora Reinhold	297
The redistribution of stem sugars in wheat during grain development. By I. F. Wardlaw and H. K. Porter	309
Changes in levels of nicotinamide adenine nucleotides and Krebs cycle intermediates in mung bean leaves after illumination. By D. Graham and Judith E. Cooper	319
The components of leaf water potential. I. Osmotic and matric potentials. By J. Warren Wilson. With an appendix by C. W. Rose	329
The components of leaf water potential. II. Pressure potential and water potential. By J. Warren Wilson	349
The components of leaf water potential. III. Effects of tissue characteristics and relative water content on water potential. By J. Warren Wilson	359

NUMBER 2, APRIL 1967 (*Continued*)

	PAGE
Phosphate uptake along attached and excised wheat roots measured by an automatic scanning method. By G. D. Bowen and A. D. Rovira ..	369
The nitrogen nutrition of the peach tree. I. Seasonal changes in nitrogenous constituents in mature trees. By B. K. Taylor	379
The nitrogen nutrition of the peach tree. II. Storage and mobilization of nitrogen in young trees. By B. K. Taylor and the late L. H. May ..	389
The nitrogen nutrition of the peach tree. III. Metabolism and translocation of L-[guanido- ¹⁴ C]arginine hydrochloride and L-[U- ¹⁴ C]asparagine in young dormant trees. By the late L. H. May and B. K. Taylor	413
Proteins and catalase isoenzymes from <i>Fusarium solani</i> and their taxonomic significance. By R. Hall	419
Electrophoretic properties of fast- and slow-growing species of <i>Rhizobium</i> . By K. C. Marshall	429
Effect of some myotropic substances on mollusc hearts. By C. C. Kratzing and R. J. Ladd	439
The metabolism of ram, bull, dog, and rabbit spermatozoa after cooling to 5°C. By T. O'Shea and R. G. Wales	447

Short Communications

Cotyledon excision and flowering in <i>Pisum sativum</i> . By Margaret J. Johnston and R. K. Crowden	461
Sucrose breakdown and synthesis in the ripening grape berry. By P. J. Hardy ..	465
Carbon and nitrogen nutrition of <i>Monilinia fructicola</i> . By R. Hall	471
Wood tannins — isolation and significance in host resistance to <i>Verticillium</i> wilt disease. By T. C. Somers and A. F. Harrison	475
A multilayered secondary wall in fibres of <i>Eucalyptus obliqua</i> L'Hérit. By D. S. Skene	481
Uptake of monosilicic acid by <i>Trifolium incarnatum</i> (L.). By K. A. Handreck and L. H. P. Jones	483

NUMBER 3, JUNE 1967

Respiration of leaves during photosynthesis. I. Estimates from an electrical analogue. By J. V. Lake	487
Respiration of leaves during photosynthesis. II. Effects on the estimation of mesophyll resistance. By J. V. Lake	495

NUMBER 3, JUNE 1967 (*Continued*)

	PAGE
Infrared reflectances of plant leaves. By C. L. Wong and W. R. Blevin..	501
Extracuticular wax and contact angle measurements on wheat (<i>Triticum vulgare</i> L.). By J. H. Troughton and D. M. Hall	509
Rheological behaviour of <i>Chara australis</i> . By W. J. Wallace	527
Ultrastructure and differentiation in <i>Chara</i> sp. I. Vegetative cells. By J. D. Pickett-Heaps	539
Ion uptake by carrot tissue and mitochondria. By Ivy K. K. Goh and J. T. Wiskich	553
The uptake of sucrose by bean leaf tissue. II. Kinetic experiments. By R. S. Vickery and F. V. Mercer	565
Acid metabolism in <i>Atriplex</i> . I. Regulation of oxalate synthesis by the apparent excess cation absorption in leaf tissue. By C. B. Osmond	575
Salt regulation in the mangroves <i>Rhizophora mucronata</i> Lam. and <i>Aegialitis annulata</i> R.Br. By M. R. Atkinson, G. P. Findlay, A. B. Hope, M. G. Pitman, H. D. W. Saddler, and K. R. West	589
Nutrient uptake and distribution in subterranean clover during recovery from nutritional stresses. I. Experiments with phosphorus. By D. Bouma ..	601
Nutrient uptake and distribution in subterranean clover during recovery from nutritional stresses. II. Experiments with sulphur. By D. Bouma ..	613
Photosynthesis in artificial communities of wheat, lucerne, and subterranean clover plants. By R. W. King and L. T. Evans	623
Indoleacetic acid in cambial tissue of radiata pine. By K. R. Shepherd and K. S. Rowan	637
The survival in soil of <i>Itersonilia pastinaceae</i> Channon, the cause of parsnip canker. By P. R. Smith	647
Histopathology of hypotrichosis in calves. By A. V. Schleger, B. J. Thompson, and R. W. Hewetson	661
A study of lipid absorption in young milk-fed calves with the use of a lymphatico-venous shunt for the collection of thoracic duct lymph. By A. D. Shannon and A. K. Lascelles	669

Short Communications

Antithyroid activity of onion volatiles. By J. W. Cowan, A. R. Saghir, and J. P. Salji	683
The surface-area/body-weight relationship in mice. By N. J. Dawson	687
The number of particles of <i>Sericesthis</i> iridescent virus required to produce infections of <i>Galleria</i> larvae. By M. F. Day and N. Gilbert	691

NUMBER 4, AUGUST 1967

	PAGE
An analysis of the water potential isotherm in plant tissue. I. The theory. By I. Noy-Meir and B. Z. Ginzburg	695
Effects of osmotic pressure on exudation from corn roots. By Betty Klepper	723
Collection and partial characterization of volatile selenium compounds from <i>Medicago sativa</i> L. By C. J. Asher, C. S. Evans, and C. M. Johnson ..	737
Respiratory activity and morphology of mitochondria isolated from whole and sliced storage tissue. By R. F. M. Van Steveninck and Margaret E. Jackman	749
Ammonium nutrition and flowering of apple trees. By V. O. Grasmanis and G. W. Leeper	761
Susceptibility of the juvenile leaves of <i>Eucalyptus bicostata</i> Maiden <i>et al.</i> to infection by <i>Phaeoseptoria eucalypti</i> (Hansf.) Walker. By W. A. Heather	769
Morphogenetic homeostasis in mice. By P. A. Parsons and W. L. Howe ..	777
The physiological division of labour in the salivary glands of <i>Oncopeltus</i> <i>fasciatus</i> (Dall.) (Heteroptera: Lygaeidae). By P. W. Miles .. .	785
Some properties of xylanase and xylobiase from mixed rumen organisms. By D. J. Walker	799
The growth and composition of wool. IV. The differential response of growth and of sulphur content of wool to the level of sulphur-containing amino acids given per abomasum. By P. J. Reis	809
Assessment of conformational changes in low-sulphur <i>S</i> -carboxymethylkeratine from wool. By G. M. Bhatnagar and W. G. Crewther	827

Short Communications

Carbon dioxide limitations of plant growth in tube culture, with special reference to legume-nodulation studies. By A. H. Gibson	837
A study of electrograms recorded from the conus arteriosus of an elasmobranch heart. By A. K. Tebēcis	843

NUMBER 5, OCTOBER 1967

Preferential absorption of potassium by leaf tissue of the mangrove, <i>Avicennia</i> <i>marina</i> : an aspect of halophytic competence in coping with salt. By D. W. Rains and E. Epstein	847
Studies of fine structural and biochemical changes in cotyledons of germinating soybeans. By T. Treffry, S. Klein, and Mary Abrahamsen	859

CONTENTS

NUMBER 5, OCTOBER 1967 (*Continued*)

	PAGE
Abscisic acid and some hormone-regulated plant responses. By D. Aspinall, L. G. Paleg, and F. T. Addicott	869
Ultrastructure and differentiation in <i>Chara</i> sp. II. Mitosis. By J. D. Pickett- Heaps	883
The structure of the cuticular wax of prune plums and its influence as a water barrier. By Joan M. Bain and D. McG. McBean	895
Ionic relations and ultrastructure in <i>Ulva lactuca</i> . By K. R. West and M. G. Pitman	901
Observations on the mycorrhizas of forest trees. II. The rhizosphere of <i>Pinus</i> <i>radiata</i> D. Don. By R. C. Foster and G. C. Marks	915
Studies on oat-attacking and wheat-attacking isolates of <i>Ophiobolus graminis</i> in Australia. By S. C. Chambers and N. T. Flentje	927
Studies on variation with <i>Ophiobolus graminis</i> . By S. C. Chambers and N. T. Flentje	941
The haemoglobins of a sheep-goat hybrid foetus and those of the parent species. By L. F. Bailey, G. Alexander, and D. Williams	953
Population data for the transferrin variants in the Australian Merino. By D. W. Cooper, L. F. Bailey, and O. Mayo	959
The transfer of nitrogen from the blood to the rumen in sheep. By R. H. Weston and J. P. Hogan	967
The transfer of zinc from the blood to the rumen in sheep. By R. H. Weston and J. Kastelic	975
Action of dinitrophenyl amino acids on skeletal muscle proteins. I. Weak and strong absorption of bis(dinitrophenyl)lysine and bis(dinitrophenyl)- ornithine by myosin. By R. W. Burley, W. J. H. Jackson, and Jean P. Robertson	983
Studies on reduced wool. VII. The complexity of one of the major components. By E. O. P. Thompson and I. J. O'Donnell	1001

Short Communications

Freezing processes in wheat stems. By W. V. Single and C. R. Olien	1025
Nitrogen, sodium, and potassium in foliage from some arid- and temperate- zone shrubs. By R. T. Lange	1029

NUMBER 6, DECEMBER 1967

	PAGE
Inflorescence initiation in <i>Lolium temulentum</i> L. XI. Early increases in the incorporation of ^{32}P and ^{35}S by shoot apices during induction. By L. T. Evans and A. H. G. C. Rijven	1033
The physiology of sugar-cane. IX. Factors affecting photosynthesis and sugar storage. By J. C. Waldron, K. T. Glasziou, and T. A. Bull	1043
An anatomical investigation into the effects of gibberellic acid on the expansion of <i>Callitricha</i> shoots. By C. H. Wong and A. J. McComb	1053
Changes in the endoplasmic reticulum of beetroot slices during aging. By Margaret E. Jackman and R. F. M. Van Steveninck	1063
Salt-stimulated adenosine triphosphatases from carrot, beet, and <i>Chara australis</i> . By M. R. Atkinson and G. M. Polya	1069
Physical environment and symbiotic nitrogen fixation. IV. Factors affecting the early stages of nodulation. By A. H. Gibson	1087
Physical environment and symbiotic nitrogen fixation. V. The effect of time of exposure to unfavourable root temperatures. By A. H. Gibson ..	1105
Redistribution of ^{45}Ca in <i>Trifolium subterraneum</i> L. and <i>Antirrhinum majus</i> L. By C. R. Millikan and B. C. Hanger	1119
Factors affecting concentrations of dimethylated indolealkylamines in <i>Phalaris tuberosa</i> L. By R. M. Moore, J. D. Williams, and Joyce Chia ..	1131
Regulation of fruit set in the grape vine. By M. G. Mullins	1141
Cuticular transpiration and wax structure and composition of leaves and fruit of <i>Vitis vinifera</i> . By J. V. Possingham, T. C. Chambers, F. Radler, and M. Grncarevic	1149
Leaf characteristics of <i>Eucalyptus bicostata</i> Maiden <i>et al.</i> seedlings affecting the deposition and germination of spores of <i>Phaeoseptoria eucalypti</i> (Hansf.) Walker. By W. A. Heather	1155
A necrotrophic reaction in <i>Nicotiana</i> species induced by <i>Peronospora tabacina</i> Adam. II. Quantification of the resistance-susceptibility status of tobacco breeding lines. By C. J. Shepherd and M. Mandryk .. .	1161
Influence of nutrients on lysis of fungal hyphae in soil. By M. Bumbieris and A. B. Lloyd	1169
Mutation in <i>Thanatephorus cucumeris</i> . By N. T. Flentje, Helena M. Stretton, and A. R. McKenzie	1173
Genetic and cytogenetic studies of stem rust, leaf rust, and powdery mildew resistances in Hope and related wheat cultivars. By R. A. McIntosh, N. H. Luig, and E. P. Baker	1181

NUMBER 6, DECEMBER 1967 (*Continued*)

	PAGE
Genetic heterogeneity among the founders of laboratory populations of <i>Drosophila melanogaster</i> . II. Mating behaviour. By Sally M. W. Hosgood and P. A. Parsons	1193
Phospholipid and cholesterol content of epididymal and ejaculated ram spermatozoa and seminal plasma in relation to cold shock. By P. J. Quinn and I. G. White	1205
Natural immunization in pregnant goats against red blood cells of their sheep \times goat hybrid foetuses. By G. Alexander, D. Williams, and L. Bailey	1217
Fungal cellulases. XXII. The hexanols as indicators of a hydrophobic interaction between the β -glucosidase of <i>Stachybotrys atra</i> and the acceptor substrate. By M. A. Jermyn	1227
<i>Short Communications</i>	
Role of the seed coat in dormancy of <i>Eucalyptus pauciflora</i> and <i>E. delegatensis</i> seeds. By E. P. Bachelard	1237
Oxalyl-coenzyme A synthetase and the neurotoxin β - <i>N</i> -oxalyl-L- α , β -diaminopropionate. By G. A. R. Johnston and Helen J. Lloyd	1241
The chromosomes of sheep \times goat hybrids. By P. L. T. Ilbery, G. Alexander, and D. Williams	1245
Index to Volume 20	1249
